ISE789 – Stochastic Programming
Assignment 1 Presentation Evaluation
September 16, 2010

Presenter Name: _____

Complete the following survey for each presentation by circling the number that most closely represents your impression. Sum the total points and enter as the total at the bottom.
Unless otherwise specified assume the following:
Key: 1 = disagree, 2 = somewhat disagree, 3 = indifferent, 4 = somewhat agree, 5 = agree

1. The presenters clearly described their model:

1 2 3 4 5

2. The model is well defined and the assumptions are reasonable:

1 2 3 4 5

3. Rate the complexity of the model (1 = low, 5 = high):

1 2 3 4 5

4. Rate the creativity of the model (1 = low, 5 = high):

1 2 3 4 5

5. Overall this was a good presentation:

1 2 3 4 5
